

SUSPENSION OF WHOLESALE LENDING ACTIVITIES

This NOTICE does not apply to banks and credit unions. Existing wholesale submissions from these entities may continue. Retail operations will be unaffected by this announcement.

August 26, 2009

DUE TO market conditions which have seen major lenders suspend correspondent purchasing, and others discontinue operations altogether, an unforeseen demand has overwhelmed our capacity to fund loans. In response to this situation, Mid Nation Mortgage is temporarily suspending wholesale lending activities until additional capacity can be obtained.

All loans submitted by the end of business today will be underwritten and funded according to the Broker Agreements in place as of this date. Unfortunately, wholesale submissions received after Friday, August 28, 2009 will not be accepted.

All approved brokers will retain an approved status with MNM and will be notified when additional funding capacity will enable us to begin accepting submissions again.
